From the day that a young man starts out to seek his first position to the end of his business life, his health has a world to do with his success. When a young man applies to a business man for a position, his personal appearance has a deal to do with the outcome. "Personal appearance" does not mean dress alone. It does not mean exterior cleanliness alone. A young man may be clean, so far as soap and water will make him, but he is disfigured by unsightly pimples, eruptions and ulcerations on the skin. These are due to impurities in the blood. The blood becomes impure because it is improperly nourished. Instead of receiving the life-giving elements of the food, it receives the foul emanations of indigestion, biliousness and constipation. The reason that Dr. Pierce's Golden Medical Discovery is the best remedy for disorders of this description is that it goes right to first causes. It gives a man an appetite "like a horse." It facilitates the flow of digestive juices. It corrects all disorders of the digestion, and makes the assimilation of the life-giving elements of the food perfect. It invigorates the liver. It purifies and enriches the blood. It makes the muscles strong and active. It tones and steadies the nerves. It makes a young man look as he should—strong of body, alert of brain and clean and wholesome of skin. Medicine dealers sell it, and have nothing "just as good."

"I had eczema in its worst form," writes Austin Ramsey, Esq., of Saltillo, Huntington Co., Pa. "I tried three doctors but got no relief. I thought it would set me wild. It itched and burned so badly. The neighbors thought I would never be cured. I took your 'Golden Medical Discovery' and am now well."

STATE LAND OFFICE,
CARSON CITY, NEVADA,
July 30, 1898.

NOTICE IS HEREBY GIVEN THAT THE State of Nevada, under Act of Congress, approved June 16, 1890, (21 Stats. 287), has filed in the United States Land Office at Carson City, Nevada, List No. 216 of lands selected under said Act, and has applied for a patent for said lands; that a part of said list is open to the public for inspection, and a copy thereof, by descriptive subdivisions, can be obtained from the office in said United States Land Office for the inspection of all persons interested and the public generally.

Within the next sixty days following the date of this notice protests or contests against the claim of said State of Nevada to any tract or sub-division described in the list, on the ground that the same is more valuable for mineral than agricultural purposes, will be received and noted by the Register and Receiver of the United States Land Office at Carson City, Nevada, for report to the General Land Office at Washington, D. C.

The following are the sub-divisions described, to-wit: NE 1/4 of S34, Sec. 4, T 23 N. R. 18 E., M. D. S. & M.—40 acres.

THE ISSUE TO DAY.

In another column is an article relative to the political situation in Nevada upon the Senatorial question, which every man, woman and child should read. It does not deal with fancies, but with sound, logical, pertinent facts. We ask the people of Nevada if what is therein expressed is not true? Six years ago the people of this State elected Senator Stewart to the Senate with unanimity and an enthusiasm seldom, if ever before, witnessed in any State. To-day there is a bitter, vicious and calumnious contest waged against him. His foes are largely within the three allied parties, of which he stands to-day one of the great national leaders. He must make his fight in the house of his friends and not against the common enemy.

Shall the fate of the silver movement in Nevada be the fate of the silver movement in Oregon? God forbid! It is not the people who have revolted, but the demagogues who would aspire to lead. Rule or ruin! Rule or ruin! Is their policy, and as they cannot lead they must ruin. It was not the Republicans who elected Joseph Simon Senator in Oregon over Senator Mitchell. It was the demagogues. They are the leaven of disintegration which has caused so many efforts of the people to end in failure. Will Senator Stewart, Senator Teller and finally Bryan go the way of Senator Mitchell? It is for the people to decide.

MONEY TO DRAIN THE LOWER LEVELS.

The Carson Appeal thinks that inasmuch as the Central Pacific Railroad Company has been forced by Congress to pay back the millions advanced to build it by the Government, with interest, or suffer foreclosure, that the Virginia & Truckee Railroad Company should also be compelled to refund to Ormsby and Storey counties the \$500,000 advanced by them to build that line. There seems to be meat in this. Let us have a little justice all around. Perhaps even the \$387,383 53 subsidy given by the Comstock mining companies in aid of the construction of the V. & T., might be recovered and used in the draining of the lower levels of the Comstock mines. This would be a great thing for Nevada, and we have no doubt but that the Virginia City Enterprise will exploit it with enthusiasm.

ANOTHER LIE TO BE NAILED.

Following is the latest campaign lie which appeared in yesterday's Plauder:

"Mr. Cleveland referred to the action of Stewart in advocating the measure that suspended the interstate commerce act on the long and short haul as regards Nevada, and Stewart may have some difficulty in convincing the people of our State that it is wise and politic to pay back rates from Sacramento when it lay within his power to have cut down those rates."

On what page and in what volume of the Congressional Record is this "action" to be found? Or in Committee, what page and volume of what Committee reports? Let Mr. Cleveland, if he referred to any such action, or the Plauder give this reference. This is another falsehood which the above parties or any other are challenged to substantiate.

The German National Bank of Pittsburgh, Pa., announced yesterday morning that it had gone into voluntary liquidation. Bank Examiner Young is in charge and reports that the securities held by the bank are ample to pay all depositors dollar for dollar.

It was rumored in New York yesterday that successful negotiations had been completed for the purchase of the San Francisco and San Joaquin Valley Railroad. This will give the Atchafson road its long desired entrance into San Francisco.

HON. A. C. CLEVELAND'S poetry was omitted in Carson and Virginia. Evidently the author does not think much of the literary judgment of anybody in this State outside of the "Athens of Nevada."

HON. WM. WOODBURN'S long silence we trust is not caused by nervous prostration resulting from his extensive correspondence with Senator Stewart.

In a recent publication of the membership roll of the Lawyers' Home Rule Club we inadvertently omitted the name of Jas. F. Dennis.

The purity of election law is said to have its disadvantages. It has a tendency to contract the circulating medium.

The great efforts of the Silver State in behalf of the Silver party candidates is attracting attention.

SENATOR STEWART has discovered that H. M. Yerington can talk faster than he can write.

EDITOR CONSIDINE seems also to have had difficulties with A. C. Cleveland's poetry.

The discovery has just been made that Alf Chantz is running for office.

It will soon be in order to assert that the political pot is beginning to boil.

TELEGRAPHIC NOTES.

Redfield Proctor was re-elected as United States Senator from the State of Vermont yesterday.

Governor Clough of Minnesota has wired the Secretary of War that he agrees with General Bacon that the Indian war in that State is at an end.

Coroner Hawkins of San Francisco held an inquest into the death of Mrs. Richard Barry, who was found dead under suspicious circumstances a few days ago in that city and young Donovan, who had been on intimate terms with her was arrested on suspicion that he knew something about her death. It was found by the jury that the woman had died from natural causes and Donovan was released.

Patrick Rosch and John C. Rice, two roofers at Boston, became involved in a quarrel while at work on top of a four-story building in that city yesterday and clung, both rolling off the roof, falling to the ground and being killed.

The construction of a large naval station is considered certain at the Hawaiian Islands. Captain Turner, U. S. N., has made a draft on the public work office at San Francisco to commence operation.

The War Investigation Commission continued its work at Jacksonville, yesterday. Testimony was taken on various charges covering quantity and quality of supplies and the evidence as a rule sustained the Administration.

The steamer Romack arrived at Seattle yesterday from St. Michael, having on board about 500 passengers and gold dust estimated at \$2,000,000.

Subdued the Virago.

While Spurgeon was still a boy preacher he was warned about a certain virago and told that she intended to give him a tongue lashing. "All right," he replied, "but that's a game at which two can play." Not long after, as he passed her gate one morning, she assailed him with a flood of billingsgate.

He smiled and said: "Yes, thank you, I am quite well. I hope you are the same."

Then came another burst of vituperation, pitched in a still higher key, to which he replied, still smiling. "Yes, it does look rather as if it is going to rain. I think I had better be getting on!"

"Bless the man!" she exclaimed, "he's as deaf as a post. What's the use of storming at him?" and so her ravings ceased and were never again attempted.

There is a curious little Holland village in Wisconsin named Little Chute whose chief manufacture is wooden shoes. The people there are as thoroughly Dutch as their progenitors. The town stands on the ground where Pere Marquette had his winter quarters, and where the Dutch priests instructed the Indians.

PROBATE OF WILL.

IN THE SECOND JUDICIAL DISTRICT Court in the State of Nevada, in and for Washoe County.

In the matter of the estate of David Bole deceased.

Notice is hereby given that Frank M. Lev having filed in this Court a petition praying for probate of the will of David Bole, deceased, and that letters testamentary thereon be issued to him, that on Monday, the 25th day of October, 1898, at 10 o'clock A. M., at the Court House in Reno, has been fixed as the time and place for hearing said petition, when all persons interested in said estate are notified to appear and there to appear and show cause if any they have why the prayer of said petition should not be granted, and letters issued as prayed for.

F. B. PORTER, Clerk.

Dated October 19, 1898.

Manners Outside the Navy.

The ordinary seaman's respect for rank and station when not connected with his beloved vessel is decidedly meager. When the president of the United States visits one of our men-of-war, he is received at the gangway by the admiral, commanding officer and all of the officers of the ship, in full uniform, the crew at quarters for inspection, the marine guard drawn up with the band on the quarterdeck, the national flag is displayed at the main, the drummer gives four ruffles, the band plays the national air and a salute of 21 guns is fired. The same ceremony also takes place on his leaving.

On one occasion the president visited one of the ships informally, dispensing with the salute and ceremony, when one of the men rather indignantly asked another who that lubber was on the quarterdeck that didn't "douse his peak" to the commodore.

"Choke your luff, will you," was the reply, "that's the president of the United States."

"Well, ain't he got manners enough to salute the quarterdeck, if he is?"

"Manners! What does he know about manners? I don't suppose he was ever out of sight of land in his life." "On a Man-of-war."

Plurals of Nouns Ending in "O."

In the formation of the plural of nouns with this ending the general rule is that as is added to the singular, as in potatoes, cargoes, buffaloes, yet the following words add only s: Grotto, junco, canto, cento, quarto, portico, octavo, duodecimo, tyro, solo (all, by the bye, foreign words), and also all nouns ending in io, as folio, folios; or, in fact, whenever o is immediately preceded by a vowel, as cameo, embryo, etc. A notable peculiarity is to be observed with regard to nouns substantive ending with the sound of o. If they be words of more than one syllable, they for the most part end simply in o, but if only of one syllable, they take an s after the o, thus, canto, potato, quarto, hero, but doe, foe, roe, sloe, toe, woe, etc. Yet other monosyllables, not nouns substantive, have no final s, as so, lo, no.—Literature of Typography.

Crabs and Earthquakes.

For some time previous to the day upon which the great Chilean earthquake occurred swarms of crabs of an unknown variety were seen in the bay of Payta. They all appeared to be greatly excited and were literally climbing over each other in their efforts to escape the impending calamity. There were millions of them, and "ten days after the earthquake the dead crabs were thrown upon the beach in a wall two feet or four feet wide along the whole extent of the bay."

"To the Lamppost."

This is a mistranslation of "A la lanterne!" There was no lamppost. The lamp was hung over the middle of the street, in the center of a cord, which passed over pulleys at the sides of the street. The lamp was let down, the person to be hanged was substituted for it, and the ends of the cord pulled.—Notes and Queries.

The humming of telegraph wires is not caused by the wind, for it is heard during perfect calms. It has been conjectured that changes of temperature, which lighten or loosen the wires, probably produce the sound.

The skin of the kangaroo, when properly tanned, never cracks.

ASSAILED BY DEMOGOGUES
IN EVERY DIRECTION.

HE IS MAKING HIS FIGHT LIKE
AN OLD LION AT BAY.

A great Greek warrior made this appeal: "Deliver me, O ye gods of Hellas, in this mighty conflict, from these who will sow dissensions in our ranks to lead us to cross purposes with one another. We fear not the foe."

The most terrible enemy of human welfare has been the Demagogue, fighting as a traitor in the ranks of the people and not in the army of the enemy. There has never been a cause but what he has espoused. There has never been a conflict but what he has betrayed.

What matters it whether the demagogue be honest in his own conceit or dishonest, a fool or a knave? The result is the same. He is the instrument of defeat, the puppet of the enemy even when sounding his discordant trumpet which he calls the holy of holies of reform. An army organized for a great cause which ceases to follow its commanders to disintegrate into warring factions led by corporals and sergeants is a sorry spectacle. It will be the history of the great silver movement if the demagogues in each State have away.

Every little tin-horn people's advocate is not a leader. Every blatant shout of reform is not a reformer. Every man who aspires to lead independently, who acknowledges no duty of allegiance nor necessity of harmonious action, is but a shallow prater of the enemy, fighting at cross purposes with the welfare of humanity.

The demagogue starts out with a great reform. Lacking in the wisdom to lead, he is equally lacking in the wit to follow. He soon discovers that nobody is honest but himself. He starts a reform within the reform to discredit and undermine the influence and authority of those in command. He becomes a reformer of the true reformers, a disintegrating force, a capacious, quiresome marplot in the rear, until finally he lands with the wreck of all, an isolated idiot upon the shores of nowhere.

There is an issue in Nevada to-day, the outgrowth of demagoguery, which involves the principle that Abraham Lincoln defined as swapping horses in the middle of a stream—Shall Nevada discredit Senator William M. Stewart?

I need not call to mind the history and condition of the silver cause in this country. Nevada is its cradle. Here it sprang into life. We carried its banner alone until others were won by the truths we presented. It is become the greatest issue between parties. It has suffered one defeat but its leaders will not let it die. Already we can see that in the campaign of 1900 it will be the great question overshadowing all others. We hold its success to be vital to the welfare of the State. We contend also, and over and above all, that it involves the question of the welfare of humanity in larger degree than any other issue of modern times.

The leader who fought for silver in the days its exponents were few, who stood before ridicule and contumely as a giant fighting in the cause he believed to be holy, whose fame then gave it dignity and whose courage gave it followers was William M. Stewart.

In season and out of season, during the best years of an illustrious life, by speech, magazine and newspaper article, lecture and letter, he has fought and striven for its success as no other man in the world has fought and striven for it.

The issue is to discredit him. He stands to-day like an old lion assailed in every direction and at bay. His foes are not those which assailed him heretofore, but those within the party he built up to champion a great cause. The enemies of the Silver movement need not fight him now. They can rest upon their weapons and watch the interneine conflict. An ally has come to the aid of Gold, greater than all the forces that gold could bring here. That ally is Demagoguery. Its weapons are falsehoods, its ammunition is libel, its field of work the great unrest of the people due to the very causes which the silver movement is designed to alleviate, and its motives, the jealousy, inconsistency and ambition of corporals and Lieutenants.

They have borrowed the weapons of the enemy to hurl against him. They have fathered the bastard children of Sherman's brain to prove him guilty of the crime of 1873 and Sherman, himself, innocent. They have employed scandal to dip into her reeking pool of filth to cast it upon him. They have quoted fragments of his speeches, apart from the context, to prove him inconstant and untrue, and juggled his words and put speeches into his mouth he has not said. They have denied him credit for what he has done and accused him of doing what he has not done. They have twisted his good deeds into crimes, and charged him with insincerity, treachery and dishonesty. They have denied to his gray hairs, honor; to his fame and ability, respect; and to his services in behalf of mankind, gratitude.

They have charged that he is not a resident of the State, which is false; and that he is not a taxpayer of Nevada, which is untrue. In the face of a record unsurpassed for legislation secured and watchful devotion to the interests of his people, they claim that he has been weighed in the balances and found wanting.

Loudest of all, and as the halcyon of charges, they affirm that he is the friend of the Pacific Railroads to the injury of the people of Nevada.

Though every word spoken at every session of Congress and of every committee thereof, and every vote taken, is published in volumes accessible to any citizen of the United States; though Senator Stewart's every act as a Senator with reference to the Pacific Railroads is an open book, yet have his traducers failed to produce by page and volume any single vote, speech or act which impeaches his fidelity to Nevada. The evidence is before them and they do not obtain it.

They have dealt in generalities and unsupported assertions when the best evidence, and that which could not be controverted, was obtainable, if it existed, and they have not produced it. But instead they have produced charges of such substance as Demagogues dream are made of,—tremendous horrors, stupendous revelations, which, when probed, let out only the discoverer's wind.

On the other hand a great and faithful leader is assailed by such weapons in the house of his friends. A statesman grown old in fighting for a cause who would participate in its victory.

"Hogan's Alley."

The Klondyke of Comedy, "Hogan's Alley," will be the attraction Wednesday, October 26th, at the Opera House. It can safely be stated that with the universal indorsement it received last season from both the press and public that this season's production will excel all others as it has been entirely remodeled and rewritten by the well known playwright, W. H. Macart, who has put together a very funny story to surround the comedians. Of course it abounds in comedy, music and songs, with a vast scope of specialties which make all farce comedies acceptable. Everything being new and entirely different as when seen on a former engagement. The comedy being in three acts, all abounding in its great wealth of fun. The company supporting Campbell and Caulfield is made up from the very best of the profession, and among them can be found such well known performers as Johnnie Dugan, Frank Rhodes, the Misses May E. Cunnard, Ethel Cope and Anna Driver and others.

Another Line From the Nevada Boys.

One of the boys in Troop A, Nevada Volunteers, now stationed at the Presidio, writes the JOURNAL that Lieutenant Brambilla, who has been lying very low at the Waldeck Hospital with typhoid fever, is improved somewhat and hopes of his recovery are now entertained. He also writes that there are no immediate indications that the troop will be sent across the ocean, but they hope for a change somewhere. Generally all are in pretty good health and anxious for some kind of active service, but when or where is yet a matter of doubt. The boys are always glad to see Nevada friends and earnestly hope that those visiting San Francisco will not fail to visit their camp.

The Sure La Grippe Cure.

There is no use suffering from this dreadful malady, if you will only get the right remedy. You are having pain all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold, in fact are completely used up. Electric Bitters is the only remedy that will give you prompt and sure relief. They act directly upon your Liver, Stomach, and Kidneys, tone up the whole system and make you feel like a new being. They are guaranteed to cure or price refunded. For sale at S. J. Hodgkinson's Drug Store, only 50 cents a bottle.

PLATFORM.

The Silver Party of Nevada pledges its unwavering devotion to the principles of government laid down by Jefferson and Lincoln.

That the highest duty of government is to so regulate its laws that the spirit of equality shall follow men through life, giving each ample opportunity to work out to the fullest measure his possibilities, unrestricted by law, and unaffected by the conquest of his dominion of opportunity by other men.

We endorse the demands of the American people in consonance with the foregoing, the platform of the National Silver party formulated at St. Louis, July 23, 1896, and the financial plank of the National Democratic party adopted at Chicago, July 7, 1896.

The history of the movement for the restoration of bimetallism is the glorious story of Nevada's leadership. The educational work so patriotically undertaken six years ago has spread throughout the entire country. On the issue that the value of money is quantitative and not qualitative, the intellectual and political forces of nations are now battling. Mindful of her glorious record Nevada will take her place again in the forefront, not as the ally of gold, but on the side of those who struggle in the fields of adversity.

We reaffirm our devotion to the free and unlimited coinage of silver at the ratio of 16 to 1 by the independent action of the United States, and we are unalterably opposed to the Republican policy of increasing the bonded debt of transferring the sovereign power of the government to issue money to banking institutions; of contracting the circulating medium to the single gold standard, and of increasing taxation while contraction is diminishing the means of payment.

Our faith in the loyalty, ability, and wise leadership of William J. Bryan is undiminished, and we predict for the silver forces of the United States, with 16 to 1 as their motto, and William J. Bryan as their standard bearer, an overwhelming victory in 1900.

We invite the co-operation of the Republican party of Nevada who declared in their platform of May 24, 1896, as follows:

"Resolved, That the Republican party of this state is in favor of free and unlimited coin-

age of both gold and silver; that it holds to this principle as a tenet of party faith and a test of party allegiance; that it will permit of no abandonment or modification of this doctrine; that let whoever prove recreant to the principle of bimetallism it will remain steadfast thereto."

And who on May 9, 1896, at Virginia City, declared as follows:

"We again reiterate our steadfast devotion to the cause of the free and unlimited coinage of silver, and declare that in our judgment the restoration of the true bimetallic standard of value as it existed previous to 1873, namely, at the ratio of 16 to 1, is an absolute and indispensable requirement of the financial system of our government will afford the people a value of stable circulating money sufficient to place the business of the country on a permanently prosperous basis."

We endorse the action of Nevada's representatives with respect to tariff and financial legislation; commend their patriotic support of the administration in time of war, whilst using all efforts to prevent the issuance of bonds.

We say to the Republican party of Nevada: Do not the beneficent results of the tariff schedule of the Dingley bill which affect Nevada, and which Nevada's silver representatives secured, namely: wool, cattle, hides, cyanide, and borax, fall upon you as the rain falls upon the just and the unjust? And if so, in what manner could Republican [representatives] have done more?

We say to the Democratic party of Nevada: Has not the action of Nevada's Representatives on financial legislation been in keeping with the Democratic platform of 1896, and, in this respect, could Democratic Representatives have done more?

We express our profound appreciation of the tireless efforts of Nevada's grand old man, Wm. M. Stewart, not only as the leader of the silver cause in America, but for his great devotion to the local interests of the State, as exemplified by the fact that he has been the author of many of the important measures affecting Nevada's interests which have been enacted by Congress, namely, the mining laws of the United States, the Carson Mint, the Stewart Institute, the establishment of the Agricultural Experiment Station, which enables the State University to receive \$40,000 a year Government aid, and the securing of a military instructor at the State University.

We further commend his efforts, now likely soon to be crowned with success, to secure the payment to the State and citizens of Nevada of nearly half a million dollars for money expended in the suppression of the war of the rebellion, and Indian outbreaks. We endorse his proposal to secure legislation which would purchase a great lake reservoir, which will guarantee the farmers along the Truckee river more water for irrigation, and enable a vast additional area of arid land to be brought under cultivation.

We earnestly recommend the re-election of Wm. M. Stewart to the Senate of the United States, and pledge the Silver party of Nevada and the nominees of this convention to his support for that office.

To our other Senator, John P. Jones, we extend the greeting of a people who rejoice that they have such a great public servant who has honored the Commonwealth, which has delighted to honor him. His pre-eminent knowledge of all financial questions has been used by him for the benefit of the whole world, and his speeches in the United States Senate upon the silver question have become the text book of those statesmen who are devoted to the interests of the whole people.

We take pride in the career of Francis G. Newlands in Congress, notably in the fact that he has risen in six years to a place among the leaders of the House, and that his influence in public affairs is becoming more and more manifest, as is shown by his great part in the annexation of the Hawaiian Islands, a consummation anticipated and desired by the American people for more than fifty years. We declare that Nevada cannot afford to lose him as her Representative in the halls of Congress.

Recognizing the importance of State development upon agricultural lines, we commend the efforts of our Representative in Congress to secure for the State of Nevada legislation looking to the reclamation of arid lands, and the storage of water in reservoirs and urge our Senators and Representative in Congress to secure the passage of the irrigation bills now before Congress, introduced by our Representative Francis G. Newlands.

The United States is now in the rightful control of Cuba, Porto Rico, and the Philippine Islands, and we are in favor of holding the same until the American people shall have time to consider and make such disposition of the new acquisitions as sound policy and the interests of the whole country may require.

We favor the construction of the Nicaragua canal by the Government of the United States of America as a political and commercial necessity.

At the last session of Congress a law having been passed providing for the settlement of the indebtedness of the Central Pacific railroad to the Government of the United States, the terms of which require the payment of the entire debt, principal and interest, within ten years, with interest at the rate of 3 per cent per annum, and on failure to make such settlement within one year, the mortgage lien of the United States to be at once foreclosed, and the property sold to the highest bidder, we favor foreclosure according to the terms of said law in case the conditions regarding settlement are not complied with.

Certain decisions of the United States courts having shorn the Inter State Commerce Commission of the authority and powers undoubtedly intended to be conferred upon it by the original enactment, we favor such amendments to the Act as will make it an effective protection to the people against discriminating tariffs.

The heroism and valor of the American soldier and sailor have won additional laurels during the war with Spain. The story of the brave deeds of our naval and military heroes will forever form a glorious page in American history. On land as well as sea America's defenders have proved their unsurpassed courage. Praising those who fought our battles, we condemn the traitorous conduct of those officials, wherever responsibility may rest, to whose culpability is due the death by starvation and disease of several thousand of our men. We demand that the awful scandals involved in the conduct of the war be impartially and completely investigated, and that adequate punishment be meted wherever due.

The people of Nevada are justly proud of their University. We commend the efficient management which has made it an institution of infinite usefulness and widening possibilities. Its influence is already felt as a potent factor for the intellectual and economic development of the State. We pledge to it generous support and hearty co-operation along every line that will tend to maintain its present high standard or conduce to its improvement.

This convention pledges its nominees for Governor that he will approve of such legislation as will carry into effect the sixth section of Article 10 of the State Constitution, which provides that the Legislature shall provide a special tax which shall not exceed two mills on the dollar of all taxable property in the State in addition to the other means provided for the support and maintenance of the State University and common schools. This convention recommends all county conventions of the Silver party to pledge their nominees for the State Legislature to carry into effect the State Constitution by passing a bill levying a tax of one mill on the dollar of all taxable property in this State in addition to the other means provided for the support and maintenance of the State University and common schools of this State.

We invite comparison of the four years during which the Silver Party has been in control of the State Government with the last four years of the Republican rule. The last four years of the last Republican Legislature amounted to \$50,000 that of the last Silver Party Legislature, \$20,000. The expenses of the Executive Department for the last year immediately preceding Silver Party control amounted to over \$28,000, while but \$23,000 were expended in 1897, and \$22,000 in 1898. For the last four years of Republican management \$8,000 were expended in public buildings as against \$97,000 by the Silver Party. And during the periods in comparison, in support of the public schools of the State, the Silver Party expended \$277,000 as against \$226,500 by the Republican party. No one can examine the foregoing and many other facts and figures which might be added without the resulting conviction that the Silver Party has fulfilled its promise of retrenchment with reference to the expenses of the State, and the curtailing of the State's expenses, while, on the other hand, it has generously fostered the educational and charitable institutions of the State and wisely contributed to its public improvement.
